

DISNEY QUIZ

For the love of Disney

Repeated Design

The Header is repeated across all pages and included in all page views

The logo is displayed in the centre of the header.

Font-style Satisfy in color white with a magic wand image (width 80px height 95px) which is also the icon of the site.

background-color: #393e8f;
border: none;
width: 100%;
height: 100px;
font-size: 1.5rem

The Footer is repeated across all pages and included in all page views

The footer is very simple, a dark colour with the copyright in the middle. It finishes off the page and clearly shows the page end.

background-color: #12194A;
width: 100%;
height: 100px;
color: white;
font-size: 0.8rem;

All Buttons are styled the same, to recognise their function. When pushed a shadow displays to signify the pushing action for the User.

width: 90px;
height: 50px;
border: solid black 1px;
padding: 10px 5px 10px 5px;
background-color: #f3cc64;
font-size: 1.2rem;
font-family: Satisfy, sans-serif;
border-radius: 5px;

The various page sections are all set to be the same width and to display as a flex column. This creates continuity across both pages and all sections.

```
.general-display {  
  width: 500px;  
  display: flex;  
  flex-  
direction: column;  
  justify-  
content: center;  
  align-  
items: center;  
  margin: auto 0;
```

The various image containers are set with a solid border in #12194A and a border-radius of 5%.

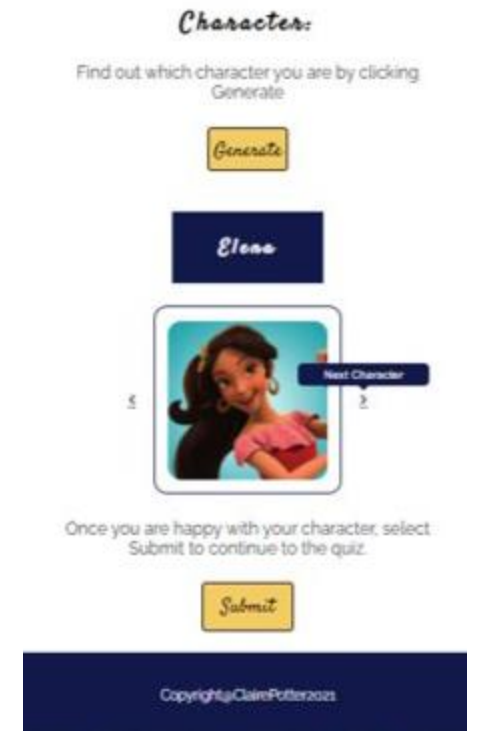

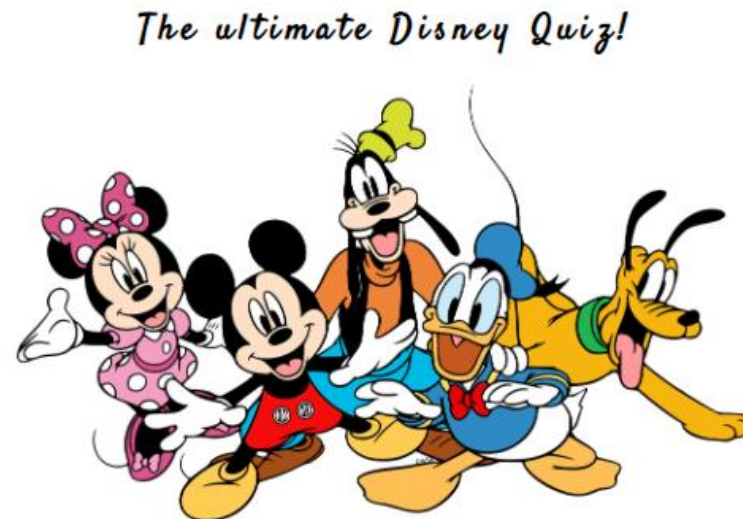

Home Page Design

The home page is set in a single column flowing from top to bottom. This is achieved by setting the various page sections as the same width. It creates a single path with a downwards direction for the user to follow.

The home page static image is a group picture of Mickey and his friends. This immediately lets us know the theme of the site.

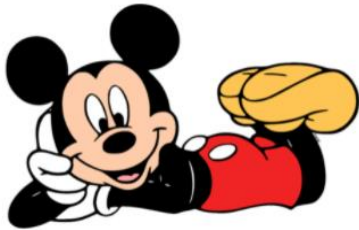

The generate character area has a simple design so as not to distract from the character images themselves. The arrow icons are from font awesome and have tooltip text to let the user know that the previous or next character will display when clicked.

Quiz Page Welcome Design

*Are you ready for the ultimate
Disney quiz?*

You will have 45 seconds to answer each question,
make sure you do so before the time runs out.

Turn your sound on to play the audio clips.

Click the "End Quiz" button at anytime to end the quiz
and return to this page.

Click Yes to start

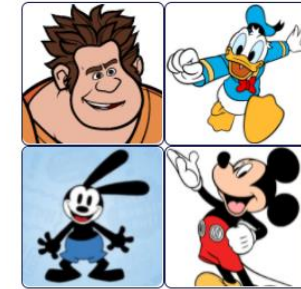

The quiz page welcome screen appears within the same viewing pane as the home page setup. The user has a clear focal area. The mickey mouse image correlates with the mickey and friends image used on the home page. Font styles, header, footer and button style are all repeated for consistency.

The quiz itself appears within the same view frame as the home page. Consistent colours and styling continue throughout all quiz questions.

Question 1 of 25

What was the name of Walt Disney's first cartoon character?

Click the below button to play the sound clip.

Ralph

Oswald the Lucky Rabbit

Donald Duck

Mickey Mouse

Next

The character icon and name reflects on the upper rig In the mobile version this section is centred with the quiz.

```
#character-name-area  
width: fit-content;  
height: fit-content;  
font-size: 1.2rem;  
color: white;  
font-weight: 700;  
text-align: center;  
background-color: #12194A;  
border: solid 1px;  
border-radius: 5px;  
font-family: Satisfy, sans-serif;  
position: absolute;  
left: 20px;  
top: 110px;
```

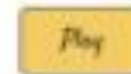

As far as possible clipart
Cartoon versions of characters are used, as they really display the essence of Disney. The picture area within the quiz once again has a tooltip hover over with the picture name.

Question 4 of 25

Name the film and the character heard in the following sound clip:

Click the below button to play the sound clip:

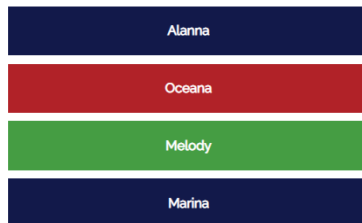

Quiz Page - the quiz

The question options are styled in our Disney dark blue with the text clearly readable in white. They display in a column one after another.

The mouse appears as a pointer to show the options are clickable.

When a question is answered incorrectly, the colour of the container will change to red and the score tracker will be marked wrong and red. The correct answer then displays in green.

When a question is answered correctly, the colour of the container will change to green and the score tracker will be marked correct and green.

```
@keyframes slideinLeft {
  0% {
    transform: translateX(-100%);
  }
  100% {
    transform: translateX(0%);
  }
}
```

End Quiz

Question 1 of 5

How many brothers does Prince Hans of the Southern Isles have in Frozen?

The quiz includes a timer and an Exit Quiz button.

These are set as absolute and fixed and scroll down with the page so that they can always be seen.

The quiz is set to scroll to the top of the page for every new question which means the user does not have to do so manually.

You beat the timer!

End Quiz

If you answer in time the timer will display as this.

You answered in time, but you got it wrong

End Quiz

If you answer in time but get the answer wrong the timer will display as this.

Time is Up!

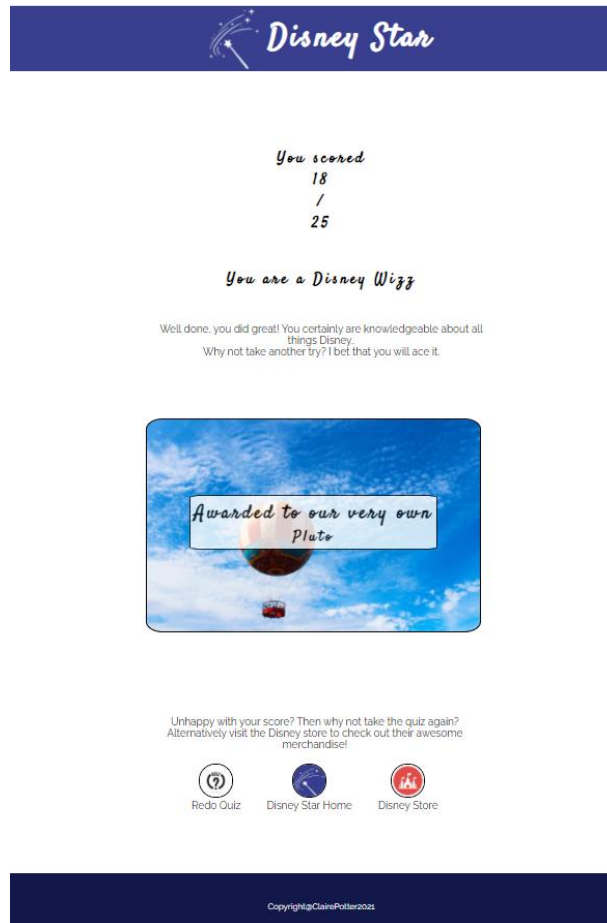

Oh dear, you did not beat the timer!

Ok

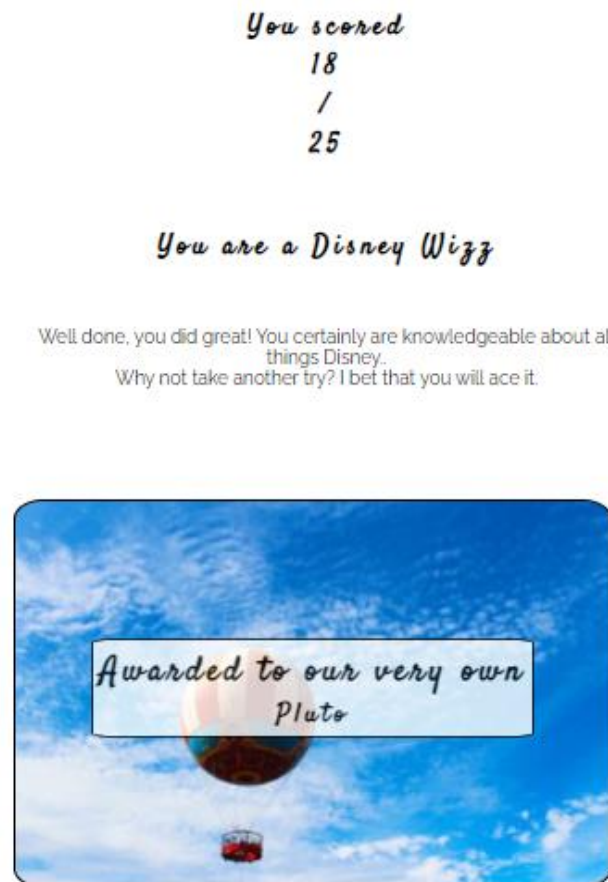

If you don't answer in time a SweetAlert styled alert will display.

Quiz Page - the results

The results page continues within the same column view pane.

The font and image styling are kept as consistent as possible with the rest of the site.

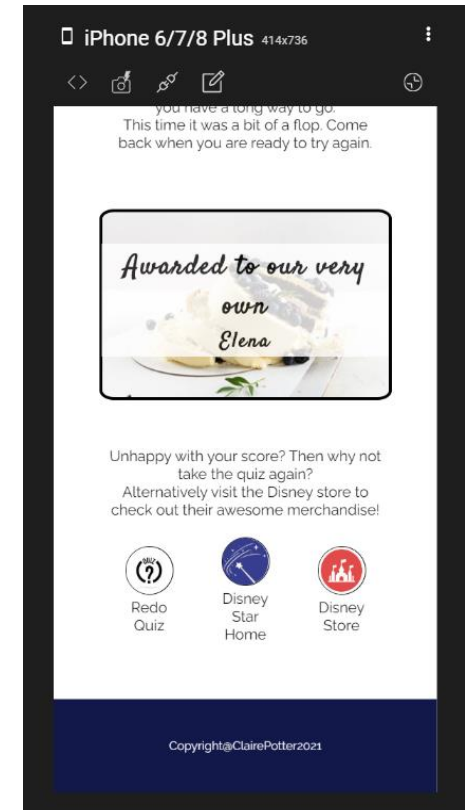

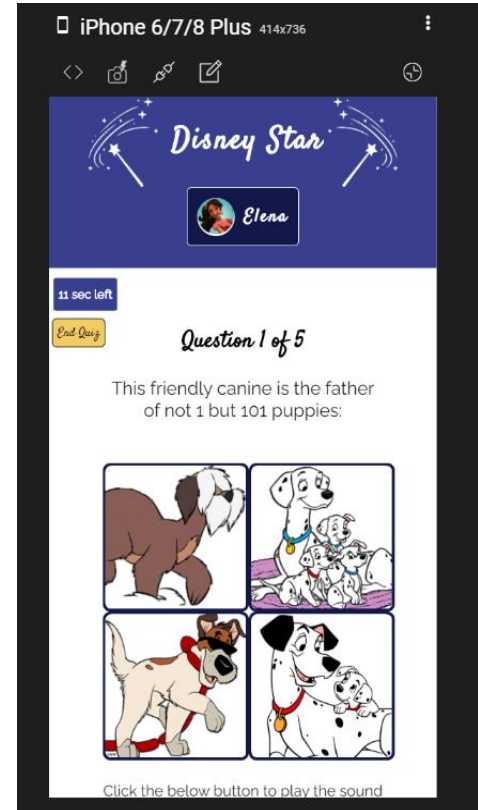

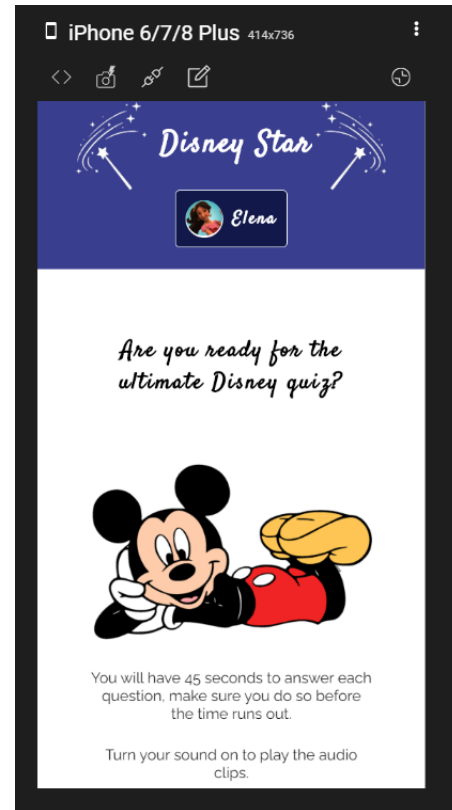

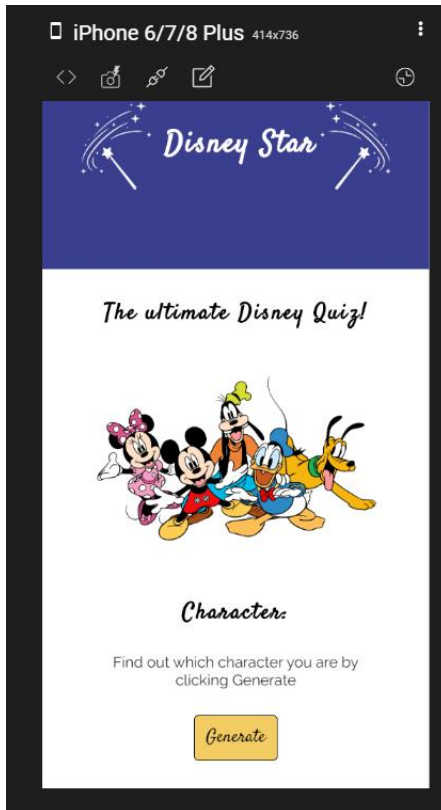

The next steps section

Has been setup with small icons clearly displaying the next steps available to the user. As the site clearly flows from one section to the next, a navigation menu is not required as the user is clearly taken between each page and each site section until the options to go home, redo the quiz or visit the Disney store are presented.

Unhappy with your score? Then why not take the quiz again? Alternatively visit the Disney store to check out their awesome merchandise!

MOBILE

- As the site has been designed in a single column view, the look and feel displays consistently across mobile screen sizes.
